# THE SOCIETY OF ARTS

Was founded in 1754, and incorporated by Royal Charter in 1847, for "The Encouragement of the Arts, Manufactures, and Commerce of the Country, by bestowing rewards for such productions, inventions, or improvements as tend to the employment of the poor, to the increase of trade, and to the riches and honour of the kingdom; and for meritorious works in the various departments of the Fine Arts; for Discoveries, Inventions, and Improvements in Agriculture, Chemistry, Mechanics, Manufactures, and other useful Arts; for the application of such natural and artificial products, whether of Home, Colonial, or Foreign growth and manufacture, as may appear likely to afford fresh objects of industry, and to increase the trade of the realm by extending the sphere of British commerce; and generally to assist in the advancement, development, and practical application of every department of science in connection with the Arts, Manufactures, and Commerce of this country."

The importation of new products from our Colonies, the reclaiming of waste lands, the improvements of Agriculture, the application of Chemistry to the Industrial Arts, and the improvement of Machinery were amongst the earliest objects to which the Society directed its attention, and its Transactions show that the Premiums it has awarded, the opportunities it has afforded for discussion, and the information it has been the means of disseminating have led to many important improvements in Manufactures, and have laid open many new and valuable sources of industry and commerce in the United Kingdom, the Colonies, and foreign Countries.

The Society has issued a General List of subjects, in reference to which Premiums and Medals are offered. It is also directing its attention to the encouragement of Art Workmen, by offering Premiums for works in wood-carving, modelling, *repoussé*, and hammered work in metal, chasing, ivory-carving, painting on enamel and porcelain, marquetry, glass engraving, &c. For the present Session, the Society offers 87 Prizes, in 20 different classes. Detailed particulars of these Prizes may be had by application to the Secretary, and photographs or casts of the examples issued can be purchased by intending competitors.

From a very early period the Society has held Exhibitions of various kinds, which, by showing what had already been done, and the degree of perfection that had been attained, have stimulated the progress of invention and design, and directed attention to points still requiring improvement. Since its Incorporation by Royal Charter, in 1847, it has been able to carry out these objects more systematically, and by holding a series of Industrial, Mechanical, Educational, and Fine Art Exhibitions, it prepared the way for the Great International Exhibition of 1851, which was originated by the Society.

It was subsequently occupied in establishing the International Exhibition of 1862, for which it obtained a Guarantee Fund of nearly £450,000, and a Royal Charter, incorporating the Commissioners for carrying out the Exhibition.

For eighteen years the Society had the honour of having for its president the Prince Consort, under whose auspices many of its most successful operations, including the Great Exhibition of 1851, were carried out. His Royal Highness the Prince of Wales has honoured the Society by accepting the office of President.

The Society has founded, in memory of the Prince Consort, a Gold Medal, entitled The Albert Medal, to be awarded annually for distinguished merit in promoting Arts, Manufactures, or Commerce.

In 1852 the Society founded its "Union of Institutions," and now has about three hundred Literary, Scientific, and Mechanics' Institutions, District Boards, and Local Educational Boards, in the United Kingdom and the Colonies, in Union with it. One of the principal objects of this "Union" being the promotion of adult education, the Society has appointed a Central Board of Examiners, and for several years past has held Examinations of members of these Institutions and other persons, to whom it awards Prizes and Certificates, in all the principal branches of knowledge. His Royal Highness the Prince Consort, late President of the Society, showed his interest in the Examinations by offering an annual Prize of Twenty-five Guineas as a special mark of distinction, and this Prize has been graciously continued by Her Majesty the Queen.

The Society is now engaged in taking measures for improving the Musical Education of the country, and a Committee appointed by the Council has published two reports, pointing out how, in their opinion, a really National Academy of Music may be established. The Committee is still actively prosecuting the subject. The Improvement of Labourers' Dwellings is occupying the attention of the Council, and a Committee for this special object has been appointed.

The Session commences in November and ends in June. At the Wednesday Evening Meetings during the Session, papers on subjects relating to inventions, improvements, discoveries, and other matters connected with the Arts, Manufactures, and Commerce of the Country are read and discussed, full reports of which are given in the Weekly Journal, published by the Society, entitled the *Journal of the Society of Arts*, which contains, in addition to the Reports of the Society's Proceedings and Transactions, Reports of the Institutions in Union, and a variety of Information connected with Arts, Manufactures, and Commerce.

The following are the dates of the Meetings for the Session 1866-67:—

# LIST OF INSTITUTIONS IN UNION.\*

Any Institution or Provincial Union of Institutions, desirous of entering into Union with the Society of Arts, must fill up, sign, and return to the Secretary, a printed Form of Declaration, which will be furnished on application. When this form has been approved by the Council, the Institution is taken into Union. The subscription is two guineas annually, and may be paid in either of the two following ways: the President, or any other analogous officer of the Institution, may be elected a member of the Society of Arts; or the Institution or Provincial Union may contribute from its own funds the sum of two guineas. In the former case the gentleman so selected will enjoy all the privileges of a Member, and will, at the same time, give to his own Institution, so long as he continues to hold the same office in it, the advantages of the Union. In the latter case, the Institution itself will receive the advantages of the Union, but no individual member of the Institution will enjoy the full privileges of a member of the Society of Arts.
